

ABOUT US.

NetCo Professional Services GmbH has been developing and distributing professional camera systems for documentation and security since 1996. At our locations in Blankenburg (Harz) and Magdeburg, we develop two specialized product lines for different industries.

NetCo Body-Cam | Documentation instead of just de-escalation

Body-worn cameras for police, public transport companies, and security services with integrated de-escalation technology. The large front display makes recording situations transparent for all involved, and this mirror effect prevents up to 75% of incidents in advance.

- **Made in Germany:** Full HD recording, up to 12 hours battery life, IP65-protected
- **Body-Cam Pro version** with **live streaming** via LTE/Wi-Fi
- **Multi-user capability** and **automatic data transfer**
- In use **at over 200 government agencies** and **companies**

Industry: Security industry

Special features: GDPR compliant, front display for de-escalation, hosting in Germany

Availability: As a complete solution including “NetCo Suite” software, cloud service and support; Option: rent or buy
